

Diagnostic Imaging

A photograph of a family of four walking away from the camera on a path through a sunlit forest. The father on the left is holding the hands of a young girl who is jumping in the air. The mother on the right is holding the hand of the girl and a leash for a dog. The scene is bright and cheerful, with sunlight filtering through the trees.

FIRST STEPS TO RECOVERY.

When it comes to diagnostic services, our commitment is clear - to help support the timely treatment of the injured worker enabling the recovery process to begin sooner.

The overriding goal of Orchid is helping injured workers get back to work and back to life quickly and cost-efficiently as possible.

Moving Forward. Working Together.

In every step of the recovery process, we work collaboratively with claim professionals, case managers and provider partners to deliver an integrated solution that expedites positive outcomes for injured workers and savings for our clients.

EASY REFERRAL OPTIONS

Calls are answered directly by intake specialists who process the referral and assign it to a dedicated care coordinator.
