

Home Health & Complex Care

SMOOTH TRANSITION OF CARE.

Orchid is always on-call to help you navigate the home care process and arrange optimal care for injured workers' evolving medical needs. Employing a holistic approach, we serve as an extension of your claims management team offering clinical expertise in helping to ensure injured workers have a smooth transition of care to their homes.

The overriding goal of Orchid is helping injured workers get back to work and back to life quickly and cost-efficiently as possible.

Moving Forward. Working Together.

In every step of the recovery process, we work collaboratively with claim professionals, case managers and provider partners to deliver an integrated solution that expedites positive outcomes for injured workers and savings for our clients.

EASY REFERRAL OPTIONS

Calls are answered directly by intake specialists who process the referral and assign it to a dedicated care coordinator.

BACK TO LIFE. BACK TO WORK.

ORCHIDmedical.com

BACK TO LIFE. BACK TO WORK.

Clinical Expertise. At Home.

Orchid care coordinators work with you and our in-house clinical team comprised of assistive technology professionals (ATP), registered nurse and rehab specialists to arrange appropriate and cost-effective home health services through our national network of credentialed providers.

Beyond home health, Orchid offers the efficiency and control of having all ancillary services, such as mobility equipment, home modifications and prosthetics coordinated by a single source.

HOME HEALTH

- Skilled nursing
- RNs and LPNs
- Catastrophic care
- Wound care
- Home health aides
- Companion care
- Hospital discharges
- Medical social workers

IN-HOME THERAPY

- Physical therapy
- Speech therapy
- Occupational therapy
- Respiratory therapy

IV THERAPY
